

combination

CP40 Recodable combination range

- 4 wheels with 10,000 possible combinations making the lock very difficult to pick
- Fully recodable
- 1/4" diameter hardened steel shackle
- Die cast alloy body with dual compound cover
- Spaced wheels for ease of use, push button spring opening, double locking mechanism.
- Dual compound protective cover for high corrosion resistance and excellent weather protection

patented

European Patent No 07251150.4
USA Patent No 11/687761

Recommended for

Sheds, trucks, lockups, tool boxes and storage areas.

can be coded alike

outdoor use

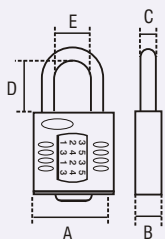

CP40
Open shackle

CP40CS
Closed shackle

CP40/2.5
Extra long shackle
